Website Awards:

Over the past six weeks, we have had over one hundred thousand unique visitors to the World Cruising Club Website, reading the latest news and your blogs sent in from at sea. They have been tracking your progress on the Event Fleet Viewer and YB Races app.

Thanks to everyone here and the thousands more at home who have been following the ARC on social media. Over twenty-two thousand five hundred Facebook fans and two and a half thousand Twitter followers have been watching your progress and enjoying the photos of you all arriving in Saint Lucia! The start from Gran Canaria was streamed live reaching over five thousand Facebook users worldwide, many sending messages to wish you fair winds for your crossing.

Big thanks to those that sent logs and photos.

Daily Logs: In total we received over 600 logs from 48 yachts in English, French and German.

Best non English log: MELTEMI (GER)

Best Overall Logs: HAWKEYE

This yacht was the first to send in a blog for ARC 2019 – beginning their online adventure by sharing their pre-ARC meet ups and time sailing en route to Las Palmas. Once their ARC began, blogs detailed multiple milestones which were always cause for celebrations – from Thanksgiving on board, to counting down the miles, to reaching dizzying speeds of 3 to 4 knots; there always seemed to be a reason for a sundowner glass of fizz! We thought we would give you one more reason to celebrate with the prize for best overall blogs – Congratulations!

Best photos from at sea: VERBENA

This boats photos, accompanying their fun-filled logs, showed that they clearly had a fantastic time during the crossing.

Fishing Competition

Largest fish – IDEFIX

Happenings At Sea – thanks to all involved

BLUE MOON – MIGRANTS 20L FUEL & STANDY FOR 3 HOURS

HAWKEYE – STANDING BY EA DURING RUDDER PROBLEMS
